

Step 1 is embroidered text.

Step 2 is fabric placement line.

Step 3 tacks down the fabric. Trim fabric before moving on to the next step. Since this is a bean stitch applique design, it is best to leave a small seam allowance and not trim extremely close to the stitching as you would for a traditional applique design.

For a raggy look, you may want to include a layer of flannel below your fabric and leave up to a quarter-inch around the outside edge.

Step 4 is the bean stitch detail that finishes off the applique.
