

These are sized to coordinate with our Elegant Scroll Sketch Monogram. For example, insert the 3" size Elegant Scroll Sketch Monogram inside the frame named "ElegantScrollFrameBeanI2S for3_0in". The combined size will be larger than 3". Exact dimensions and stitch counts are listed on page 2.

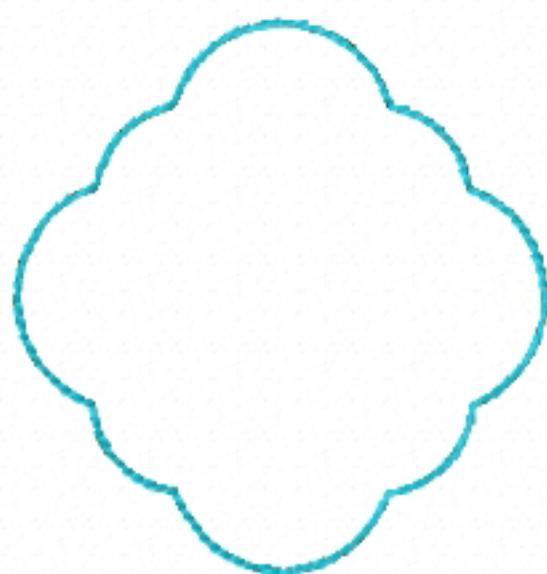

- Step 1 is fabric placement line. Lay a generous piece of fabric over the placement stitch (at least half an inch of extra fabric all around the design)
- Step 2 tacks down the fabric. Trim fabric before moving on to the next step. Leaving a quarter-inch seam allowance will allow for fraying and a raggy look. Trimming close to the line will allow for a more polished look (depending on your material you may wish to use a fusible product like Heat-n-Bond Light).
- Step 3 is bean stitch finishing stitch.

More tips and suggestions can be found on our blog! This post is in reference to our Double Varsity Raggy Alphabet, but the samples showing the variety of looks that can be achieved by fabric selection apply.
