These are sized to coordinate with our Elegant Scroll Monogram. For example, insert the 2" size monogram in the frame named "ElegantScrollFrameMotifl2S for 2in". The combined size will be larger than 2".

This motif design is embroidery-only with two color stops. To recreate the look of our primary sample image we recommend using tearaway stabilizer on the back of the towel and a thin water soluble stabilizer (like Sulky Solvy) on the top of the towel. We used one coordinating thread color for a tone-on-tone look for both steps, but the three color stops allow for you to use multiple thread colors if you choose.
