

Step 1 is the fabric placement line for the first feather. Lay down a generous size piece of fabric over the placement line. We recommend using a layer of flannel under the fabric for raggy designs.

Step 2 tacks down the fabric. To achieve the look of our sample, trim close to edge on the left/top of the feather that will be covered by later fabrics, but leave more of an edge on the other two sides (generally about a 1/4", but the amount depends on the look you want.)

Step 3 is triple bean stitches to finish the feather.

Steps 4-18 repeat this process for the remaining five feathers.

Step 19 is the fabric placement line for the turkey body.

Step 20 tacks down the fabric. Trim close to edge.

Step 21 is zig zag stitches to finish the body.

Steps 22-26 are embroidered details.

To start the ragging/fraying effect, you can snip the edges and rough them up with your fingernail. It will get fluffier with each machine washing.

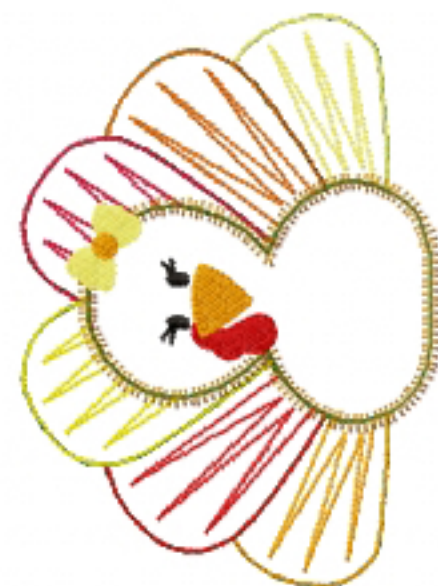

Exact dimensions and stitch counts for all included sizes are on page 2.
