

These frames are sized to coordinate with our Natural Circle Monogram. For example, use "FootballMonogramFrameFillI2S for2_5in.pes" with a 2.5" monogram.

Whether you combine the monogram and frame at your machine or in software, stitch the monogram first, then the frame, aligning their centers.

Step 1: fill stitch football frame

Step 2: satin stitch football laces that will stitch over the monogram you have already embroidered

The sizes below are for the frame only. When combined with a monogram, the height will be the same as the monogram.

1 Arrowwood
2 Soft Butter
